

# Mission Statement

## Our Vision

**Our vision is to nurture children to be best that they can be.**

**At Downview School we grow and learn together every day.**

## Our Mission

**Our mission is to be a kind, respectful and safe school.**

**Downview school provides a safe and nurturing space where children feel valued and supported. The curriculum equips pupils with the confidence and skills necessary for lifelong learning and success.**

## Our Values

### **ASPIRATION**

Children are encouraged to have big dreams and believe that they can be achieved. At Downview it is important for children to feel excited about learning and confident that they can do amazing things in the future.

### **COMMUNICATION**

Children are taught that good communication helps everyone to learn and play together. Children will learn how to listen, share their ideas, ask questions and respect others.

### **INDEPENDENCE**

Children are taught how to develop their independent skills. This helps them to become more responsible, confident and prepares them for real-life situations.

### **RESILIENCE**

Children are encouraged to be resilient and not to give up, even when something is hard.

### **TEAMWORK**

Children are taught that by working together as a team they can achieve more than on their own. Teamwork helps everyone feel included and proud of what they can accomplish together.
