Year 1 – Autumn 2 – The Wonder of Trees

Key Knowledge

- To identify and name a range of deciduous and evergreen trees.
- To identify the basic structure of common flowering plants, including trees.

Key Skills

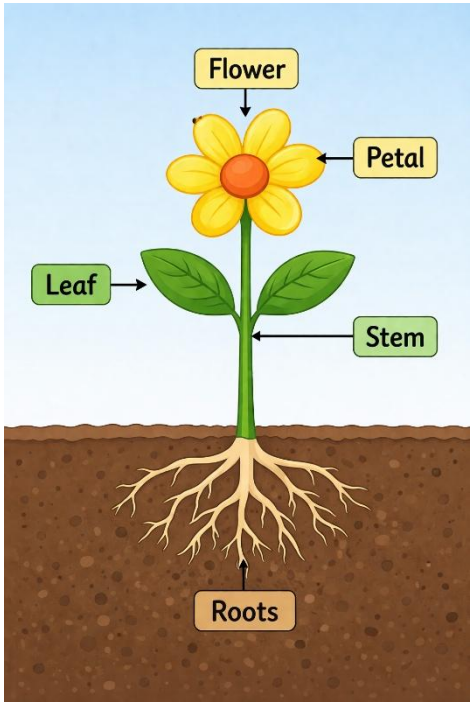

- To ask simple questions, recognising that they can be answered in different ways.
- To observe plants and trees closely, using simple equipment such as magnifying glasses.
- To use observations and ideas to suggest answers to questions.
- To gather and record data to help in answering questions.

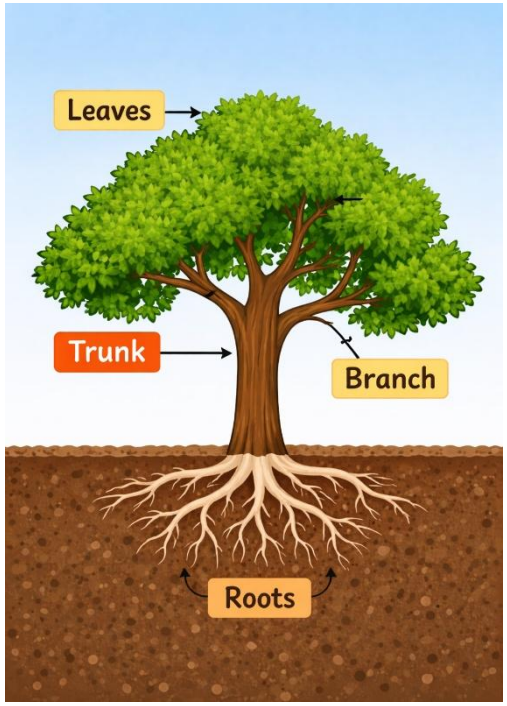

Do you remember learning?

- How plants can grow, like when you grew cress.

Key Vocabulary

- Evergreen, deciduous, weather, season.
- Roots, branch, trunk, stalk, leaf, flower, petal, twigs.
- Soil, water, seeds and bulbs.

Evergreen trees

Leaves:

- Always green.
- Tough and waxy.
- Are narrow and needle-like.

Deciduous trees

Leaves:

- Change colour.
- Fall in winter.
- Are wide and flat.
